

CYBER CHALLENGE

KPMG Cyber Challenge

We would like to invite you, along with your team and colleagues to enter New Zealand's largest cyber security competition.

No matter what the skill level of participants (from beginner through to experienced professionals), or what areas of cyber security are of interest, the KPMG Cyber Challenge has something for everyone.

Powered by [Immersive Labs](#), the KPMG Cyber Challenge uses the same platform used to train the likes of intelligence agencies, international technology companies and major financial institutions.

Over the period of a week, you'll pit your skills against your choice of over 750 practical and knowledge-based capture-the-flag style exercises as you compete to top the leader board.

You'll compete against New Zealand's best as you work your way through a variety of cyber security challenges, covering everything from security risk management and security awareness, through to ransomware, secure coding and vulnerability exploitation. The challenges are designed so that all skill levels have the potential to win.

The KPMG Cyber Challenge is open to all IT professionals and tertiary cyber security students in New Zealand and will run from 6pm on Friday 19 June 2020 through to 6pm on Friday 26 June 2020. Registrations are open from now to 18 June.

In addition to bragging rights for the winner:

- The person that tops the leaderboard at the end of the challenge will win a Samsung C49HG90 49" QLED Ultra-Wide Curved Gaming Monitor.
- The person who completes the most 'assigned objectives' throughout the week will win an Ender 3 Pro 3D Printer 3D printer.

For questions, please email cyberchallenge@kpmg.co.nz or see the [Terms and Conditions](#) and [our website](#) for more information.
